Legenda

Figure 1 is a color scale for the concentration of the pollutant in the water column. It consists of five horizontal bars of increasing darkness from top to bottom, each labeled with a numerical value. The values are 0,00008, 0,00005, 0,000035, 0,00002, and 0,000005. The unit $\mu\text{g}/\text{m}^3$ is indicated at the bottom right of the scale.
